Soft Skills: Problem Solving, Customer Service, End-User Training, Time Management, Team Collaboration, Adaptability

Work Experience

Pizza Clerk & Dairy Clerk • Longo's, Brampton, ON *Jun 2024 – Present*

- Coordinated daily department operations in a high-volume retail environment, consistently meeting service and quality standards during peak periods.
- Managed inventory ordering, stock rotation, and spoilage tracking for two departments, improving accuracy and reducing waste.
- Trained and onboarded new team members on procedures, food safety protocols, and workflow standards.
- Demonstrated strong organizational and time management skills while managing multiple concurrent responsibilities.

Store Associate • Home Essentials, Brampton, ON *Sep 2022 – Jun 2024*

- Performed weekly and monthly inventory audits, maintaining accurate stock records and reducing discrepancies.
- Reorganized stockroom layout to improve accessibility and streamline restocking workflows for staff.
- Delivered consistent customer service by assisting with product selection and maintaining organized displays.

IT Support Technician • Geo-Tech Engineering & Development Consultancy Pvt. Ltd., Kathmandu, Nepal *Mar 2021 – Nov 2021*

- Delivered end-user IT support and troubleshooting for hardware, software, and network issues across office workstations, reducing staff downtime.
- Configured and maintained printers, peripherals, and workstation setups; performed software installation and system updates across the organization.
- Leveraged Microsoft 365 (Word, Excel, Outlook) for data entry, document management, reporting, and internal correspondence.
- Maintained accurate digital records and organized company databases and spreadsheets, improving data reliability for management.
- Provided hands-on technical guidance and informal training to non-technical staff, improving team efficiency and reducing repeat issue reports.
- Recognized by the Managing Director as one of the top-performing employees for technical aptitude, reliability, and proactive problem-solving.

Projects

Budgetify – Financial Tracking Application | *Java, JSON, CSS Oct 2024 – Dec 2024*

- Engineered a Java desktop application for personal budget management, including recurring subscription tracking and real-time expense categorization.
- Designed and built a full GUI enabling intuitive expense entry, category filtering, and summary reporting for end users.
- Optimized data processing algorithms to improve application responsiveness and accuracy of financial summaries.
- Led development within a 5-person Agile team using sprint planning, iterative delivery, and Git version control.

LEGO – Full-Stack Web Application | *HTML, CSS, JavaScript, PHP, Node.js, MySQL Jan 2025 – Apr 2025*

- Architected and deployed a full-stack web application featuring user authentication, structured data collection, and role-based access.
- Integrated a PHP backend with a MySQL relational database, implementing secure data storage, retrieval, and server-side validation.
- Applied input validation and user behavior tracking to improve data integrity and overall application reliability.

Education

Algoma University | Brampton, ON *Sep 2022 – Apr 2025*
Bachelor of Computer Science – Minor in Geographic Information Systems (GIS)

VS Niketan Secondary School | Kathmandu, Nepal *2019 – 2021*
High School Diploma – Physics Stream

Certifications & Professional Development

- CompTIA A+ – In Progress (expected 2025)

- Microsoft Azure Fundamentals (AZ-900) – Familiar with core concepts
- Algoma University Computer Science Club – Coding challenges, peer collaboration, and technical workshops
